If you choose not to use your storage unit it must remain empty and not be shared with any other resident in order to maintain equality to all residents of Northwood Apartments. Please keep all storage items inside the designated storage area. Anything left outside the designated storage area is considered a general safety and fire hazard and may result in loss of belongings. Also, balconies/patios are not to be used for storage as they are considered emergency exits and are a fire hazard. If you have any questions regarding your storage area please contact the Independent Living Services Director (833-0903).

TORNADO WARNING

In the event of a tornado warning the designated tornado shelter is the Northwood Activities Room located on the first floor of C building.

VISITING DOG POLICY

Visiting dogs must be on a leash and be accompanied by their owner at all times while on the grounds and in the building. Please be sure that all dog waste is picked up and not left for others to step in. Please note that visiting dogs must NOT have overnight visits.

NORTHWOOD FIRE SAFETY GUIDELINES

Each resident should familiarize themselves with all fire safety procedures (i.e. closest exit to escape the building, elevators do not work when fire alarms are sounding and must use stairways to exit, etc.).

The following is provided to you for your safety. If you have any questions please contact the Independent Living Services Director (833-0903).

General Guidelines:

1. Buddy System?

Answer: The person across the hall is your buddy. If no one lives across the find another buddy living nearby. Check on and assist each other in an emergency.

2. Where to exit?

Answer: Go to your nearest exit whether it be the front, back or side of the building. The balcony is the option and only use if your exit is obstructed (fire, etc.)

3. Rendezvous Place?

Answer: AB Building - Grassy area to the left as you exit from the lobby (SE side of building). Do not stand on any paved area in order to avoid emergency vehicle traffic.

C Building - Grassy area to the right as you exit from the lobby (SW side of building). Do not stand on any paved area in order to avoid emergency vehicle traffic.

4. Treat every Alarm as an actual fire.

5. Practice going to your exit in the dark

Answer: If there is no electricity emergency lights will come on. Should these fail you will need to know your path to safety in the dark. It is recommended that you have a flashlight located along your path of escape from your apartment.

“What If” Questions:

1. What if you can't exit into your hallway because of fire – what do you do?

Answer: Exit to your balcony with your cordless phone or cell phone if you have one.

2. What about severe weather – can we stay inside the building?

Answer: In severe weather you may remain in the entrance lobby or at an exit door and wait for the Fire Department to arrive unless there is imminent danger.

3. What if I'm in the shower?

Answer: Cover yourself and exit immediately.
